GLEN ROCK COMMUNITY SCHOOL

Preschool
2 Year Old Program

The GRCS Preschool provides an environment where children, through active learning principles, will continue to grow socially, emotionally, intellectually and physically. Children in our program will gain greater confidence and will develop positive attitudes toward school, teachers and their classmates, while they develop skills intended to prepare them for their future school environment.

Our teachers engage the students in stimulating and challenging activities through various teaching methods. They are supportive of all student learning styles and developmental differences. All of our teachers are certified in Elementary or Early Childhood Education and are assisted in class by at least one experienced aide. We are the only preschool affiliated with the Glen Rock School District.

Independence This may be the first learning experience in a classroom for a child. The teacher and aide will assist the child in becoming more independent through even the smallest of tasks and activities, such as hand washing, snack time and choosing a book.

Socialization Friendships are formed in the classroom. Children learn to share and assimilate to group environments. The nurturing and safe classroom create a comfortable atmosphere for children to express their personalities.

Creative Expression Through visual and performing arts, children have an opportunity to express and grow their creativity. Participation in drawing, painting, singing and dancing will help develop fine motor skills. Special events and visitors to the class provide additional creative instruction.

Academic Growth Exposure to dynamic forms of both literature and science provide opportunities for letter and number recognition. Curriculum goals are taught through thematic units, with a multi-sensory approach for instruction. Children are introduced to circle time and other structured and non-structured activities.

Additional Programs offered by the GRCS Preschool

- Mom & Tot
- 3 & 4 Year Old Program
- Transitional Kindergarten

Confidence Building confidence will help the students, as this is typically the first time away from parents and caregivers. Preschoolers are creative and receptive, and our program strives to nurture and encourage these qualities in its students.

Development and Growth During early childhood years, growth and development are highly individual. Children are encouraged to experience the world around at their own rate, but always in positive progression. Our caring teacher and aide are always available for questions and enjoy giving updates about student growth, as well as addressing any challenges.

Additional Programs offered by the GRCS

- Before and After Care
- Summer camps
- Enrichment classes
